

## FIX POWER: MAPPING THE PATH TO SUSTAINABLE POWER IN NIGERIA

Managing Associate, Adeola Sunmola (pictured third from left above), was a panellist at the “**Fix Power: Mapping the Path to Sustainable Power in Nigeria**” session of the “**Made in Nigeria**” Summit and Festival (the MAIN Festival 2016) on Tuesday 27<sup>th</sup> September 2016 led by the Honourable Minister of Power, Works and Housing, Mr. Babatunde Fashola.

The panel considered issues and challenges currently faced by the power sector, including the role of the private sector in increasing capacity and the federal government's strategy for resolving challenges facing the sector on a short, medium and long term basis through a collaborative approach between the private and public sectors.

Other participants included representatives from the Mikano Group (one of Nigeria's leading power generation companies) and Mojec International Limited (manufacturers of “Made in Nigeria” metres and metering systems).
