COVID-19

UUBO Business Continuity UPDATE (2)

Last night, the President of Nigeria announced the total shut down of all non-essential movement and business activity in Lagos State, Ogun State, and the Federal Capital Territory, Abuja, for an initial period of two weeks in view of the increasing spread of the COVID-19 viral infection. This shutdown prohibits all social, business and economic activity in these areas, including private and government offices, regulatory agencies and parastatals.

At UUBO, we will continue to work remotely throughout this period as communicated in the [UUBO Business Continuity Update](#) from our Managing Partner last week. Every effort is still being made to preserve our service standards and delivery within these restrictions, bearing in mind that engagement with government and regulatory agencies may necessarily be restricted during this period.

We very much appreciate your continuing confidence and support as we navigate these unusual times together. Please do not hesitate to reach out to the partner and/or your other contact(s) at UUBO, or to email us at uubo@uubo.org at any time if you require assistance or have any questions.

Please remember to stay safe, and to follow official and health advisory guidelines and protocols as we continue to work together to “flatten the curve”.
